Marbella's Golden Mile....one of the most sought-after locations on the Costa del Sol. A precious and rare opportunity with this very large duplex property, with tonnes of authenticity and huge potential for a stunning reform. Comes with a secure private garage for one car and a large storeroom. Here is a dreamily authentic Marbella residential complex built within the Golden Mile. Situated within Marbella's lovely coast with the mountain of La Concha as a backdrop, this complex was built in 1985, and represents a bygone era when Marbella was still a the preserve exclusively of the wealthy and famous who sought out a discreet location within which to spend their holidays. Built in a true Andalusian pueblo style with vast, manicured gardens and spaces that allow for an abundance of light, this classical Marbella residence sits at the foot of Marbella's iconic la Concha mountain, within the boundary of las Lomas del Puente Romano.
